

inspire research chart 02/2024

To what extent do science and industry co-operate on publications in Austria? What attention do Austrian publications receive in patent documents? What differences are there depending on the funding organisation that finances the research?

Austrian publications of research funded by COMET and CDG are particularly often cited in patent documents. Companies are more often among the author affiliations in these publications compared to Austrian publications on average.

Data : The Lens Scholarly Works (www.lens.org/)
